8. Upload an archived application files folder or a model store (for AX 2012). Once you've done that, you can upload other additional information that would include technical documentation, manuals, list of objects, etc. Then press "Next" to proceed with entering the data.

Figure 11. *Upload the files*

- Enter the additional contact information if needed. A contact person will be notified about the project details, or the team will reach out them if they can't contact you. Enter at least name and email address. Note that you can add more than one additional contact person. Once finished, press "Next" to continue entering the data.

Figure 12. *Additional contact information*

- Expand the "Comments" field to provide additional relevant comments regarding the BestPath Assessment. Press "Save" if you would like to have the details saved in the portal (or will want to make the changes before submitting the request) or press "Submit" if all the information is correct and complete.

Finance and Supply Chain Management Process

After you submit your BestPath Assessment request, it is then accepted into the Companial's BestPath Assessment engine queue. Your request will be processed through the following steps:

Step	Description
1. Request Verification	Verification of compliance with the service requirements based on the information provided. In case of non-compliance, you will be contacted for additional information and the assessment will be placed on hold.
2. Initial Analysis	The Companial team will run the initial analysis with the provided code base and generate the results of the modified objects.
3. Proposal Preparation	Once the analysis of the information provided is complete, we will generate the proposal for the BestPath Assessment workshop.
4. Delivery of Proposal	The proposal and the initial analysis reports will be sent to the partner. A local representative will schedule a meeting to review the analysis report together and answer any questions that are raised.

If you have any questions about submitting or processing your BestPath Assessment for Dynamics AX/Dynamics 365 Finance and Supply Chain Management request, please contact us at service@companial.com and we'll support you through the process!
